Eclipses 1930

There will be four eclipses this year, two of the Sun and two of the moon, as follows:

I. Partial of the moon, April 13th, very small. Begins 12.21 A. M. Middle, 12.58 A. M. Ends 1.36 A. M., Eastern Standard Time.

II. Central of the Sun, April 28. Partial phase will be more or less visible throughout the U. S. From near San Francisco to near Butte, Montana, the eclipse will be total, and annular from that point on into Canada. The duration of the total or annular phase will be very slight in the U. S. Begins 2.13 P. M. Ends 4.34 P. M., Eastern Standard Time.

III. Partial of the moon, Oct. 7th. Invisible in U. S.

IV. Total of the sun, Oct. 21st. Invisible in U. S.

THE PLANETS

MERCURY: Brightest as a morning star, Feb. 1-15, and Oct. 10-20. As an evening star, Jan. 1-16, April 10-20, and after Dec. 25th. Seen only in the twilight for about 1 hour, and invisible at all other times.

VENUS: Will be a morning star until Feb. 6th, and after Nov. 22nd, and an evening star from Feb. 6th to Nov. 22. Brightest for a few days before and after Oct. 18th and Dec. 28th, and invisible until middle of Feb. and Nov. 20-25th.

MARS: Will be a morning star after Oct. 27th and will not attain its greatest degree of brightness possible, within the year, but may be best seen at the end of the year, being invisible in Jan.

JUPITER: Will be a morning star from June 29th to Oct. 13th, and an evening star the remainder of the year. He will not reach his brightest point within the year but may be best seen at the beginning and end of the year, being invisible in June and July. He will shine nearly all night at the beginning and end of the year.

SATURN: Will be a morning star until April 2nd, and an evening star after that date. It will be brightest June 15th to July 15th and invisible in Jan. and Dec., shining about all night in June and July.

URANUS: Brightest Oct. 1st to 15th, but invisible.

NEPTUNE: Brightest in Feb., and always invisible.

Barometer

A RISING BAROMETER.

A rapid rise indicates unsettled weather.

A gradual rise indicates settled weather.

A rise with dry air and cold increasing in summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

A STEADY BAROMETER.

With dry air and seasonable temperature indicates a continuance of very fine weather.

A FALLING BAROMETER.

A rapid fall indicates stormy weather.

A rapid fall with a westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in summer, and snow in winter.

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

Rules for Computing Interest

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When the principal contains cents, point off four places from the right of the result to express the interest in dollars and cents. When the principal contains dollars only, point off two places.

Four per Cent.—Multiply the principal by the number of days to run, and divide by 90.

Five per Cent.—Multiply by number of days, and divide by 72.

Six per Cent.—Multiply by number of days, and divide by 60.

Seven per Cent.—Multiply by number of days, and divide by 52.

Eight per Cent.—Multiply by number of days, and divide by 45.

Nine per Cent.—Multiply by number of days, and divide by 40.

Ten per Cent.—Multiply by number of days, and divide by 36.

Twelve per Cent.—Multiply by number of days, and divide by 30.

Fifteen per Cent.—Multiply by number of days, and divide by 24.

Eighteen per Cent.—Multiply by number of days, and divide by 20.

Twenty per Cent.—Multiply by number of days, and divide by 18.

Twenty-four per Cent.—Multiply by number of days, and divide by 15.

The Metric System

The Metric System of Weights and Measures has been legalized by act of Congress, July 13, 1896.

METRIC WEIGHTS.—10 milligrams make 1 centigram, 10 centigrams 1 decigram, 10 decigrams 1 gram, 10 grams 1 dekagram, 10 dekagrams 1 hektogram, 10 hektograms 1 kilogram, 1000 kilograms 1 metric ton.

METRIC MEASURES.—(One milliliter equals cubic centimeter.) 10 milliliters make 1 centiliter, 10 centiliters 1 deciliter, 10 deciliters 1 liter, 10 liters 1 dekaliter, 10 dekaliters 1 hektoliter, 10 hektoliters 1 kiloliter.

METRIC LENGTHS.—10 millimeters make 1 centimeter, 10 centimeters 1 decimeter, 10 decimeters 1 meter, 10 meters 1 dekameter, 10 dekameters 1 hektometer, 10 hektometers 1 kilometer.

APPROXIMATE EQUIVALENTS.

A meter is about a yard; a kilo is about 2 pounds; a liter is about a quart; a centimeter is about ½ inch; a metric ton is about same as an ordinary ton; a kilometer is about ⅙ mile; a cubic centimeter is about a thimbleful. A nickel five-cent piece of our coinage is a handy key to metric measures and weights. It is two centimeters in diameter and weighs five grams.

PRECISE EQUIVALENTS.

1 acre equals .4047 hectar; 1 bushel, 35.24 liters; 1 centimeter .3937 inch; 1 cubic centimeter, .0600 cubic inch; 1 cubic foot, .0283 cubic meter; 1 cubic inch, 16.39 cubic cent.; 1 cubic meter, 35.31 cubic feet; 1 cubic meter, 1.358 cubic yards; 1 cubic yard, .7645 cubic meter; 1 foot, 30.48 centimeters; 1 gallon, 3.785 liters; 1 grain, .0648 gram; 1 gram, 15.43 grains; 1 hectar, 2.471 acres; 1 inch, 25.40 millimeters; 1 kilogram, 2.20 pounds; 1 kilometer, .6214 mile; 1 liter, .908 quart (dry); 1 liter, 1.057 quart (liquid); 1 meter, 3.281 feet; 1 mile, 1.609 kilometers; 1 millimeter, .0394 inch; 1 ounce (avd.), 28.35 grams; 1 ounce (Troy), 31.10 grams; 1 peck, 8.809 liters; 1 plat, .4732 liter; 1 pound, .4536 kilogram; 1 quart (dry), 1.106 liters; 1 quart (liquid), .9464 liter; 1 sq. centimeter, .1550 sq. inch; 1 sq. foot, .0929 sq. meter; 1 sq. inch, 6.452 sq. cent.; 1 sq. meter, 1.196 sq. yards; 1 sq. meter, 10.76 sq. feet; 1 sq. yard, .8468 sq. meter; 1 ton (2,200 lbs.), .9072 metric ton; 1 ton (2,240 lbs.), 1.016 metric ton; 1 ton (metric), 1.102 ton (2,000 lbs.); 1 ton (metric), 9.842 ton (2,240 lbs.); 1 yard, .9144 meter.

SMALL CRAFT WARNING.—A red pennant indicates that moderately strong winds are expected.

STORM WARNINGS.—A red flag with a black center indicates a storm of marked violence. The pennants displayed with flags indicate direction of wind—red, easterly; white, westerly; pennant above flag indicates wind from northerly quadrants; below, from southerly quadrants. By night a red light indicates easterly winds, white light below red, westerly winds. Two red flags with black centers indicate approach of tropical hurricanes. No night small craft or hurricane signals are displayed.

Help in Case of Accidents

BURNS AND SCALDS.—Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water. Shock, which is always present in severe burns, requires the administration of stimulants. Pain is more constant and intense in burns than in any other form of injury, and requires sedatives, which should be administered by the medical attendant. Later on the appearances of inflammation and other complications are to be carefully watched for.

SUFFOCATION FROM INHALING ILLUMINATING GAS.—Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

TESTS OF DEATH.—Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead, the hole will remain; if alive, it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark.

MAD DOG OR SNAKE-BITE.—Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whisky, brandy, etc.

FIRE IN ONE'S CLOTHING.—*Don't run*—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale flame.

FIRE FROM KEROSENE.—*Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smoother with woolen rug, table-cloth, or carpet.

CINDERS IN THE EYE.—Roll soft paper up like a lamp lighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the *other* eye.

FAINTING.—Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

STINGS OF VENOMOUS INSECTS, ETC.—Apply weak ammonia, oil, salt water, or iodine.

LIGHTNING.—Dash cold water over a person struck.

Help in Case of Accidents

DROWNING.—1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after HOURS of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air, and quiet.

SUNSTROKE.—There are two important indications for treatment—reduction of temperature and the use of stimulants. The patient should first be removed to a cooler spot if possible, or at least where shade can be secured. The treatment should be begun at once. The clothing about the neck and body must be either loosened or removed. Cold is particularly indicated in cases where there is great heat of the body, and delirium and convulsive movements are present. This means of reducing the temperature may be applied in the shape of cracked ice about the head and spine, or the use of cold water. If the heat of the body is very great, it may be necessary to wrap the patient in sheets wet with cold water. If there is, besides the great heat, evidence of serious depression, stimulants must be used while the cold is being applied.

HEMORRHAGE.—The usual treatment is rest in the recumbent position; small pieces of ice should be freely swallowed, and the application of ice wrapped in a towel or in an ice-bag, or snow, cold water, etc., over the stomach; hot applications may be applied to the extremities.

FIRE IN A BUILDING.—Crawl on the floor. The clearest air is the lowest in the room. Cover head with woolen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Poisons and Antidotes

FIRST.—Send for a physician.

SECOND.—**INDUCE VOMITING**, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalis, and vice versa.

ACIDS, MINERAL.—Chalk, magnesia (plaster off wall in emergency), solution carbonate of soda, emollient drinks, fixed oils.

ACID, CARBOLIC.—Any soluble sulphate, such as magnesia.

ACID, HYDROCYANIC.—Fresh air and artificial respiration, with cold effusion. Ammonia by inhalation and intravenously in vein of leg.

ACONITE.—Emetics, stimulants, external and internal; keep up external heat, keep flat on back.

ANTIMONY TART.—Vegetable acids, such as tannic acid, catechu.

ARSENIC.—Freshly precipitated hydrated sesquioxide of iron made by adding magnesia to any iron solution.

ATROPIA.—Same as Belladonna.

BELLADONNA.—Emetics—mustard flour in water; give physostigma or pilocarpine; cold to head.

CANTHARIDES.—Emetics, emollient drinks, opiates by mouth and rectum, large draughts of water to flush kidneys.

CHLORINE WATER.—Albumen, white of egg, milk, flour.

CHLOROFORM.—Fresh air, artificial respiration (inclining head down, pull tongue forward), brandy and ammonia intravenously in leg, the **HYPODERMIC** injection of 15 m. tincture of digitalis and 1-60 of a grain of atropine.

COLCHICUM.—Emetics, followed by demulcent drinks. If coma be present brandy, ammonia, coffee. Opium in large dose. Keep up external heat.

CONIUM.—Emetics, followed by stimulants external and internal.

CORROSIVE SUBLIMATE.—Albumen, white of egg (4 gr. sublimite require white of one egg), flour, milk. Equal parts of lime water and milk. Emetics, or evacuate stomach by pump.

Poisons and Antidotes

COPPER SULPH.—Yellow prussiate of potash or soap.
CROTON OIL.—Emetics; wash out stomach, followed by mucilaginous fluids, containing opium.

DIGITALIS.—Recumbent posture after emetics. Emetics and opium; give tincture aconite.

ELATERIUM.—Demulcent drinks, enemata of opium, and external heat.

HYOSCYAMUS.—Stomach pump, emetics, stimulants external and internal, physostigma and pilocarpine.

ILLUMINATING GAS.—Hypodermic injections of nitroglycerin are recommended by Kloman, of Baltimore.

IODINE.—Emetics and demulcent drinks, starch or flour diffused in water, opium and external heat.

LEAD SALTS.—Any soluble sulphate, either magnesia or soda, succeeded by emetics, and afterwards by opium and milk.

LOBELLA.—Stimulants externally and internally; external heat.

MORPHINE.—Same as opium.

NUX VOMICA.—30 grs. of chloral and 60 grs. of bromide of potash. Nitrite of amyl.

OPIMUM.—Atropine hypodermically till respirations number 8 per minute. Stomach pump, stimulants, external and internal, brandy and coffee, cold affusion, ammonia to nostrils, galvanic shocks, compelling to move about, artificial respiration, electric brush. Permanganate of Potash.

OXALIC ACID.—Lime, not potash or soda.

PHOSPHORUS.—Sulphate of copper in emetic dose as chemical antidote. No oils. Emetics and purgatives.

POTASH AND SODA SALTS.—Dilute acetic acid, citric acid, lemon juice, fixed oils, demulcents, vinegar.

SILVER NITRATE.—Solution of common salt and demulcent drinks. Emetics.

STRAMONIUM.—Same as Belladonna.

STRYCHNINE.—Same as Nux Vomica.

TOBACCO.—Emetic, stimulants, external and internal, strychnine, external heat.

ZINC SALTS.—Carbonate of soda, emetics, warm demulcent drinks.

Bank Issues 'Crying Towels' To Silence Tales of Hard Times

Special to The New York Times.

ROCKVILLE CENTRE, L. I., Dec. 5.—Tales of business depression are not wanted in the Nassau National Bank of Rockville Centre, Dr. D. N. Bulson, its president, declared here today. For the convenience of those anxious to tell him their woes he has invented a "crying towel."

The towels, which are being distributed at the bank, bear the following inscription printed in red:

"The next time any sad-faced bozo comes into your office to tell a long tale about 'everything's gone to the dogs,' don't let him use your shoulder for weeping purposes—hand him this towel and let him go off in a corner and use it. Compliments of Dr. D. N. Bulson."

W. J. NICHOLLS GETS DIVORCE AT RENO

**Freed From Former Barbara
Rutherford—Douglass Mac-
Lean Receives Decree.**

Special to The New York Times.

RENO, Nev., Sept. 15.—Winfield J. Nicholls received a divorce here today from Barbara Rutherford Nicholls. The case was heard behind closed doors and the papers were sealed. It was revealed that desertion was the cause of the action.

Faith Cole MacLean, motion picture actress, received a decree from Douglas MacLean on grounds of desertion.

Sarah B. Morse won a divorce from Benjamin Morse, a New York merchant. Mrs. Morse charged her husband gave her \$14 weekly to run the house and nothing for her pleasure or clothing. A property settlement was made out of court.

James E. M. Fetherstonaugh received a decree from Jane Fetherstonaugh of New York on grounds of desertion. They were married in London in 1910 and have two children. An agreement provides for payment of £800 annually and also that Mr. Fetherstonaugh educate their son.

Katrina Van Wyck Bassett of New York won a decree from Hulbert D. Bassett. She charged that he had an ungovernable temper and was subject to violent fits of anger. They were married in New York June 14, 1920.

Helen Dudgeon Lee of New York received a divorce from Marion Whitney Lee on grounds of mental cruelty. An agreement, made out of court, provides that the custody of their two children goes to Mrs. Lee, Mr. Lee to support them and her to the extent of half his annual income. If this exceeds \$10,000 she is to receive 20 per cent in excess.

A sister of Mr. Lee, Mrs. Cornelia Lee Ladd, wife of William F. Ladd of 410 Park Avenue, is here and is said to be contemplating divorce action.

A petition was filed today to have Louise Polhemus Ogle, wife of Howard E. Ogle of New York and Newark, adjudged incompetent. The petition set forth that Mrs. Ogle, who came here and arranged with a lawyer for a divorce case, is insane and that her husband and Frederick S. Polhemus, a brother, want to be named guardians so that they may take her home.

Doctors Permit Woman to Die, In Saving Man

Controversy Arises on Coast Over Physicians' Debate on Which One to Rescue

By The United Press

SAN FRANCISCO, Aug. 25.—Medical science answered a question almost parallel to the famous Thomas A. Edison "desert problem," when, able to save only one of two persons—a man and a woman—doctors chose to let the woman die.

The controversy aroused here today by the physicians' decision, which meant life for Irving S. Johnson, twenty-five years old, and death for Miss May McClough, thirty, centered about the question of whether women always should be treated first.

Johnson, married and the father of a fourteen-months-old boy, was receiving artificial respiration under the Children's Hospital's only respirator when Miss McClough was brought in suffering from respiratory paralysis and in immediate need of respirator treatment.

Doctors' Identity Secret

The doctors hesitated momentarily and then decided to keep Johnson under the apparatus because he was married and his recovery was practically assured if the treatment was kept up. Miss McClough died a short time later.

Although the doctors who made the difficult choice refused to be interviewed and kept their identity a secret, the story was told by Miss Frances Dingmann, the nurse in attendance:

"It was between her and Johnson. Johnson already was in the machine. He is a young man of twenty-five, artist and executive in a publishing house. He is married and has a baby boy fourteen months old.

"He had been in the respirator a week before the other emergency arose. Both had infantile paralysis. Mr. Johnson's diaphragm simply would not function without the machine.

Johnson Put Back

"The other patient had professed herself ready to die. However, we took Johnson from the respirator, at his request, prepared to place the other patient in it.

"Johnson's breathing immediately became labored. In his seven days in the machine he had done so well there seemed every indication that with its aid he would recover. On the other hand, he seemed certain to go without it, and we had no guarantee the other [Miss Dingmann was careful never to use Miss McClough's name] would survive even with the treatment.

"In the end, they decided to put Johnson back in the respirator.

"I don't think the question of sex or age—or even the fact that Johnson had a dependent family—entered into the doctors' considerations. I think the problem was eventually decided on a basis of Johnson's and the other patient's comparative chances for recovery."

Out of the controversy raised by the tragedy has come constructive action. Two anonymous San Francisco philanthropists have donated the money to purchase and install two more respirators in other hospitals.

The "Robot Breather" is the invention of Dr. Philip Drinker, of the Harvard School of Public Health. In its function, it is a substitute for respiration by hand. The lungs and diaphragm are gently kept in action by its expulsion and intake of air.

MARY J. WILLIAMS TO WED J. R. BOYD

Her Troth to New York Banker
Announced by Her Parents, Mr.
and Mrs. E. M. Williams.

THEIR WEDDING ON MAY 1

Bride-to-Be Has Chosen Her Attendants for Ceremony in St.
James's Church.

Mr. and Mrs. Edgar Mark Williams of 875 Park Avenue have announced the engagement and forthcoming marriage of their daughter, Miss Mary Juliet Williams, to John Ritchie Boyd, son of Mr. and Mrs. Allen R. Boyd of Washington.

The wedding will take place on the afternoon of May 1 in St. James's Church, Madison Avenue and Seventy-first Street. Miss Williams will have two maids of honor, Miss Janet McCulloch of Ontario, Canada, and Miss Janet Wright of this city. Her other attendants will be Mrs. Winthrop G. Thomas of Augusta, Ga.; the Misses Jane Boyd, sister of Mr. Boyd; Suzanne Rumbough of this city, Pegram Williams of Augusta, Catherine Le Gro of Detroit, Mich., and Marjory Lawbaugh of Meriden, Conn.

Mr. Boyd has chosen Samuel H. Reynolds of this city for his best man. The ushers will be William L. Savage, Edgar G. Herendeen, Edgar Hackney, Joseph Miller Aichholtz, Frederick S. Polhemus, Edgar Mark Williams Jr., brother of the bride-elect, all of New York; George A. Robbins and Edward A. Robbins of Philadelphia and G. Howland Chase of Washington.

The ceremony will be followed by a small reception at the home of Mr. and Mrs. Williams.

Miss Williams was introduced to society two Winters ago. Mr. Boyd was graduated from Princeton in 1920 and is a member of the Ivy Club and Princeton Club of New York. He is now with the banking firm of J. Henry Schroeder in this city.

NEW YORK SUN, WEDN

Rev. S. M. Shoemaker, Jr., To Wed Miss Helen Smith

Mr. and Mrs. H. Alexander Smith of Princeton, N. J., have announced the engagement of their daughter, Miss Helen Dominick Smith, to the Rev. Samuel M. Shoemaker, Jr., rector of Calvary Episcopal Church, this city, son of Mr. and Mrs. Samuel M. Shoemaker of Baltimore, Md.

Miss Smith is the granddaughter of the late Dr. and Mrs. A. Alexander Smith of New York, and of Mrs. Bayard Dominick of 555 Park avenue, New York, and the late Mr. Dominick. Her father was the executive secretary of Princeton University from 1920 to 1927, and after a year abroad became a member of the faculty in the department of politics, giving courses on foreign relations.

Miss Smith is the sister of Mrs. Herbert K. Twichell, Jr., and of Mr. H. Alexander Smith, Jr., now at Princeton. W. Gayer Dominick is her uncle. She attended Miss Fine's School, Princeton, and Vassar College, continuing her work at Miss Nixon's School in Florence, Italy. She made her debut in New York in 1925, and is a member of the Junior League. For two years she has been engaged in social work connected with Calvary Church.

Mr. Shoemaker was graduated from St. George's School, Newport, R. I., and from Princeton University in 1916. During his university course he was manager of the musical clubs; a member of the cabinet of the Philadelphia Society, the religious organization, and president of it in his senior year. He also was a member of the senior council and belongs to the Ivy Club.

After graduation Mr. Shoemaker was a war Y. M. C. A. secretary in England for a year and became secretary for two years in China of Princeton in Pekin. He was graduate secretary of religious work in Princeton University. After completing his courses in the General Theological Seminary and Union Theological Seminary here he became assistant at Grace Church, Broadway and Tenth street, whence he was called to be rector of Calvary.

BANKER IS KILLED IN A MOTOR CRASH

J. W. Heffron Meets Death and Companion Injury.

W. John Curtis, Jr., owner of the racing schooner Pinta which took the second prize last year in the race from New York to Santander, is in a serious condition in the Port Chester Hospital and a friend, John M. Heffron, an associate of Eastman Dillon & Co., bankers, at 120 Broadway, is dead as a result of a motor car accident last night.

Mr. Heffron was killed instantly when a tire on his car blew out and sent the automobile crashing into a telephone pole near Rye, N. Y., Mr. Curtis's home.

Mr. Curtis was aboard the famous Pinta, the smallest vessel ever to race across the Atlantic, when it made its run in the summer of 1928. In September of the same year the ship was wrecked at a Boston pier by the coastal steam collier Black Point. Mr. Curtis and his companion, Thomas Chalmers of Dorchester were forced to jump overboard to save themselves.

Both of the men in last night's accident were 38 years old.

Mr. Heffron was born in Syracuse and educated at Andover and Princeton. For ten years he had been in the bond department of

Eastman Dillon & Co. and previously had been associated with the Goodrich Rubber Company at Dayton, Ohio.

Surviving are his widow, three children, his mother and two sisters.

Member of Princeton Faculty—
Susan Kronthal Betrothed to
Stephen A. Koshland.

Mrs. Charles Merrill Hough of 152 East Thirty-fifth Street has announced the engagement of her daughter, Miss Nancy Hough, to Baldwin Smith, Professor of Art and Archaeology at Princeton University. Miss Hough is the daughter of the late Judge Hough, who at his death in April, 1927, was senior judge of the United States Circuit Court here, after having been a member of the Federal bench for twenty-one years. She is a granddaughter of the late Brig. Gen. Alfred Lacey Hough, U. S. A., and Mrs. Hough, who was Miss Mary Merrill, a descendant of Nathaniel Merrill, a settler in Massachusetts in the early part of the seventeenth century. On the maternal side Miss Hough is a granddaughter of John E. Powers. She attended the Brearley School and Bryn Mawr College. John Newbold Hough is her brother.

Mr. Smith was graduated from Bowdoin College. During the World War he was a Captain in the 312th Infantry.

MARY WILLIAMS WEDS JOHN R. BOYD

Ceremony in St. James's Church
Performed by the Rev. Dr.
Frank W. Crowder.

TWO MAIDS OF HONOR

Bridal Procession Passes Through a
Line of White and Green—
Wedding Trip to Europe.

Miss Mary Juliet Williams, daughter of Mr. and Mrs. Edgar Mark Williams, was married to John Ritchie Boyd, son of Mr. and Mrs. Allen R. Boyd of Washington, D. C., yesterday afternoon in St. James's Church, Madison Avenue and Seventy-first Street. White Spring flowers, dogwood and snapdragon were massed in the chancel against a background of tree ferns, and there were vases of Easter lilies on the ends of alternate pews along the main aisle, making a lane of white and green, through which the bridal procession passed.

The Rev. Dr. Frank Warfield Crowder, the rector, performed the ceremony in the presence of many relatives and friends. The bride was given in marriage by her father. She wore a princess gown of ivory-colored satin, made with a long train and embellished with a berth of old Brussels lace, a family heirloom. Her veil of tulle fell from a headdress of lace and orange blossoms. She carried a bouquet of white orchids and lilies of the valley.

There were two maids of honor, the Misses Janet McCulloch of Ontario, Canada, and Janet Wright of this city. They wore pannier frocks of pink and orchid colored flowered chiffon with pink lace straw hats trimmed with velvet ribbon. Their bouquets were composed of pink orchids, sweet peas and blue delphinium.

The other attendants were Mrs. Winthrop G. Thomas and Miss Pegram Williams of Augusta, Ga.; Miss Catherine Le Gro of Detroit, Mich.; Miss Marjorie Lawbaugh of Meriden, Conn.; Suzanne Rumbough and Jane Boyd, sister of the bridegroom, of this city. Their costumes were similar to those of the maids of honor.

Samuel H. Reynolds of this city was best man. The ushers were Edgar Mark Williams Jr., William L. Savage, Edward G. Herendeen, Joseph Miller Aichholz, Frederick S. Polhemus and Edgar Hackney of this city, George A. and Edward A. Robbins of Philadelphia and G. Howland Chase of Washington, D. C.

The ceremony was followed by a reception at the home of the bride's parents, 875 Park Avenue.

Mr. Boyd and his bride sail tomorrow on the Belgenland for a two months' trip on the Continent. They will live at 325 East Seventy-ninth Street.

JUST ANOTHER WEDDING.—You might have expected Howard Nace to emit a sob or two—just for convention's sake—when his former sweetie, Mary Juliet Williams, said “yes” to John Boyd and the parson at St. James’ church yesterday, but he didn’t. Still, the bride doesn’t look disappointed as she leaves with new hubby.—Story on page 38.

NANCY HOUGH WEDS E. BALDWIN SMITH

Daughter of Late Federal Judge
Is Married in Chapel of
St. Bartholomew's.

DR. SILVER OFFICIATES

Bridegroom Is Professor of Art and
Archaeology at Princeton
University.

The marriage of Miss Nancy Hough, daughter of Mrs. Charles Merritt Hough and the late Judge Hough, to E. Baldwin Smith, Professor of Art and Archaeology at Princeton University, son of Mrs. Frank E. Smith of Framington, Mass., took place yesterday afternoon in the chapel of St. Bartholomew's Church. The Rev. Dr. H. Percy Silver, rector of the Church of the Incarnation, performed the ceremony.

The bride, who was given in marriage by her brother, John Newbold Hough, wore a gown of ivory colored satin embellished with old point lace. Orange blossoms held her veil in place. She was attended by Miss Eleanor Sloan of Clarksburg, Va., whose marriage to the bride's brother, John N. Hough, will take place this Summer, as maid of honor. She wore a costume of yellow organdie with hat to correspond. There was a flower girl, Mary Baldwin Smith, and a page, Lacey Baldwin Smith, young children of the bridegroom.

The ushers were Sherley Morgan, Francis Comstock, George H. Forsyth Jr., of Princeton, and Chester R. Vail of New York.

Following the ceremony there was a small reception at the Cosmopolitan Club.

Professor Smith and his bride after their wedding trip will live in Princeton. His first wife, who was the former Miss Ruth Preble Hall, daughter of the late Major William Richardson Hall, died three years ago. She was a relative of yesterday's bride, whose father, the late Judge Hough, had been a member of the Federal bench for twenty-one years. At the time of his death in 1927 he was senior judge of the United States Circuit Court here.

Interment Greenwood Cemetery, Brooklyn.
